

WasteWizer Technologies

First-of-its-kind weight sensing technology. The BinBar allows operators to monitor container weights remotely. By tracking weight levels real-time, you can send the right truck at the right time.

Reduce headaches. Decrease expenses. Increase turnover.

BinBar

32,000 lbs

Maximum loaded container weight, with prototypes able to measure even more.

Tough enough to handle large waste drops or container impacts

1 month

Battery life, with live data updates every 15-30 minutes.

User swappable battery means no downtime

60 seconds

Rapid install under a container, light enough for one person to install.

Product Family

Model	Max Loaded Container Weight
BinBar 8	8 tons
BinBar 16	16 tons
BinBar 20*	20 tons
BinBar 32*	32 tons

* prototype
